Overview

Pennsylvania is home to 7.8 million acres of farmland, from which the state's more than 59,000 hardworking farm families provide safe and affordable food, fiber and fuel to people throughout the world. Agriculture is the state's leading economic enterprise, with the sale of agricultural products contributing \$6.8 billion to the state's economy each year. Additionally, one in seven jobs are related to agriculture, accounting for approximately 14 percent of the state's employment opportunities. This vibrant agriculture industry is a reflection of Pennsylvania's agrarian heritage, and represents a growing industry that will play a critical role in Pennsylvania's future.

Preserving Pennsylvania's farmland is essential for the future of our agriculture industry and our ability to produce homegrown food and fiber for our citizens. As farmers face increased development pressures and economy-driven financial stresses, the challenge to keep land in production agriculture grows.

The Pennsylvania Department of Agriculture Bureau of Farmland Preservation helps ensure that agriculture, Pennsylvania's number one economic enterprise, continues by administering programs that keep prime agricultural lands available for production agriculture in perpetuity – forever. The decision to preserve a farm is an enormous commitment made by more than 4,500 Pennsylvania farm families.

With four full-time and one part-time staff member, the bureau provides administrative and technical support to 57 county farmland preservation programs and oversees the distribution of funds set aside for preservation purposes.

The Pennsylvania Agricultural Conservation Easement Purchase Program is first in the nation in number of farms and acres preserved. In 2013, 168 farms were preserved by permanent agricultural easements.

Bureau Activities

The bureau reviews easement recommendations for state board approval, provides guidance to counties on issues related to preserved farms and facilitates outreach to stakeholders. The bureau continued public information and training efforts in 2013, detailed in the section on page five.

The Pennsylvania Farmland Preservation Program reached its 25th anniversary in 2013. Act 148 of 1988 amended the Agricultural Area Security Law to provide the framework for today's nationally recognized program. In October, a state board meeting held at the Jere and Angela Hissong Farm, Mercersburg, Franklin County, which was considered and approved for preservation during that meeting, celebrated the milestone.

The bureau is empowered through the Farmland Preservation Program, Act 149 of 1988, as amended. Section 14.4 of Act 149 requires the State Agricultural Land

Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

This report covers the activities of the bureau and board from January 1 – December 31, 2013.

Program Implementation

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county and local governments to purchase conservation easements, sometimes called development rights, from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed agricultural land preservation boards. A state board is responsible for distribution of state funds and approval and monitoring of county programs, boards and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities and provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials according to soil quality, stewardship and development pressure. Each farm is ranked and placed on a waiting list according to its ranking. Even with more than 4,500 farms preserved, an estimated 1,900 eligible farms remain on county backlog lists.

In 2013, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 43 of the 57 counties participating in the farmland preservation program. The state board approved for purchase 168 easements of various ownership combinations – state, county, local government and non-profit.

Of the 57 counties eligible to participate in the program, 54 appropriated \$15.4 million in local matching funds for the 2013 calendar year (Figure 1, appendix). The state board approved an easement purchase threshold of \$33 million for 2013. (Figure 2, appendix)

Funding

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads, expand

operations and as financial resources that can help ensure the transition of the farm to the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, installments over a period of five years, or on a long-term installment basis.

To purchase these easements and secure land for Pennsylvanians to farm in the future, a source of funding for the conservation easement purchase program was dedicated in July 1993 with the collection of a percentage of a two-cent tax on each package of cigarettes sold in Pennsylvania. In 2002, the provisions of the cigarette tax revenue were changed to provide greater program fund stability by setting aside a flat appropriation. As a result, approximately \$20.5 million per year is now earmarked for the preservation of farmland.

In 2005, the farmland preservation program was granted a second dedicated funding source, with 14.8 percent of the proceeds of the Environmental Stewardship Fund made available each year for the purchase of easements. The reallocation of these funds to include farmland preservation was in coordination with the Growing Greener 2 initiative. In 2013, the Environmental Stewardship Fund provided \$8.3 million to the farmland preservation program.

The total investment in farmland preservation in 2013 was \$51,897,868, including federal, state, county and local dollars.

Under the provisions of Act 96 of 1994, the funding formula for county allocation of funds was revised. Instead of funding all 67 counties in the commonwealth, the allocation of funds is available only to those counties having programs approved by the state agricultural land preservation board by January 1 of each year. In 2013, 57 counties received allocated funds for easement purchase.

Many of the 57 counties appropriated funding for preservation purposes, totaling \$15.4 million. Counties that set aside funding received a state match based on a funding formula. All of the counties with approved programs received a state grant. The state's total allocation was \$33 million in 2013.

Public Information and Training

The bureau is committed to protecting the state's farmland from imprudent development. Part of this commitment involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau's staff supports the 57 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

Following several recent State Agricultural Land Preservation Board meetings, the bureau conducted roundtable sessions for county administrators and board members to communicate issues surrounding farmland preservation.

In 2013, one regional training session was conducted in Wilkes-Barre, Luzerne County, for county administrators in northeastern Pennsylvania. The bureau participated in other meetings held by the Pennsylvania Farmland Preservation Association, an organization comprised of county farmland preservation program administrators who are dedicated to promoting and enhancing the interests of agricultural land preservation in the state.

To reach out to the 57 volunteer county farmland preservation boards, bureau staff attended local board meetings in Berks, Crawford, Erie, Susquehanna and Union counties to discuss issues related to farmland preservation and agriculture.

The third edition of *A Guide to Farmland Preservation*, updated and printed several years ago to feature instructional text and document examples in a more user-friendly format, was provided to state board members and county administrators in print. It remains available to the public on compact disk or on the department's website at www.agriculture.state.pa.us by searching "guide."

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources and cutting administrative costs. The bureau will work with the department's Office of Information Technology on Phase Two to incorporate financial tracking and inspection forms, further reducing paperwork and improving efficiency.

Bureau staff provided public outreach at the 2013 Pennsylvania Farm Show in Harrisburg, Dauphin County, and Ag Progress Days in Rock Springs, Centre County.

In 2013, the bureau taught several Clean and Green program classes to county tax assessors at regional and statewide conferences. In addition, the bureau regularly attends meetings conducted by the Assessors Association of Pennsylvania's Clean and Green committee.

In 2013, the bureau presented on the Agricultural Security Area Program at the Pennsylvania State Association of Township Supervisors (PSATS) conference in Hershey, Dauphin County.

In 2013, the bureau presented at a workshop for local officials in York County regarding the Agricultural Security Area and Clean and Green Programs.

Act 19 of 2013

Governor Tom Corbett signed Act 19 of 2013, enabling counties to inspect farms biennially rather than yearly as was previously required in regulation. Advances in aerial photography since the program was first created allow counties to monitor

compliance during off years from the office. The cost-saving measure will benefit the 57 participating county programs, leveraging more county funds for easement purchases and administrative costs.

Clean and Green Program

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, protects farmland, forestland and open space by allowing for land taxation according to its value as-used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its 40-year history, the program has been vastly successful in achieving this goal.

Enrolled land is assessed according to the income approach to land appraisal – the amount of income the land is capable of producing at its highest and best agricultural use. The trend in recent years has been for the use values to increase. The county may establish use values that are less than the department's. The program has widespread participation, with 9.5 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is nearly 50 percent – providing an incentive to keep the land undeveloped. The program is voluntary and generally requires a minimum of ten acres remaining in one of three designated use categories – agricultural, agricultural reserve and forest reserve.

Agricultural use describes land used to commercially produce agricultural commodities. Agricultural reserve includes noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge. Forest reserve describes the use of 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use becomes subject to a roll-back tax imposed for up to seven years, plus six percent interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the act at the county level. The bureau provides for uniform interpretation of the act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to annually submit information on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the department surveyed each county on their Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included as Exhibit A (appendix).

In 2013, the bureau drafted revisions to the regulation that would make it current with recent changes in the law, and received public comments. The final regulation will be published by fall 2014.

2013 Clean and Green Survey Results

Administration

The 2013 survey forms were mailed to all 67 counties and 64 responded to the survey. Fifty-five counties, or 82 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2013.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 184,675 parcels enrolled in 2013 covering 9,195,989 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include: a split-off/subdivision between two and ten acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund.

Table 13 (appendix) lists the manner in which Act 319 use-values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county use value.

Table 13 also lists how counties assess the forest reserve county average values. The department, with assistance from the state Department of Conservation and Natural Resources Bureau of Forestry, provides values based on the average value of timber in a particular county and the average value of six timber types.

Federal Farmland Protection Program

The Federal Farm and Ranchlands Protection Program (FRPP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses land owners up

to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

In 2013, Pennsylvania's farmland preservation program received more than \$3.1 million in funding from the FRPP. More than 2,000 acres on 23 farms in nine counties were selected to participate in the program in 2013.

Since 1996, the FRPP has provided more than \$33 million in funding to the state easement purchase program in Pennsylvania. This funding preserved more than 40,000 acres throughout the commonwealth.

Century and Bicentennial Farm Programs

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the tradition and commitment of Pennsylvania's long-standing farm families.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Secretary of Agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The bicentennial farm program is ruled by similar standards to the century farm program.

In 2013, a total of 16 Century and Bicentennial farms were recognized. Three Century Farm families were recognized at the 2013 Pennsylvania Farm Show. During the 2013 Ag Progress Days three Century farm families and two Bicentennial Farm families were recognized. Families received certificates and photos from the ceremonies. To date, the Department of Agriculture has recognized 2,102 century and bicentennial farms.

Grant Programs

Agricultural Land Conservation Assistance Grant Program

Act 99 of 1994 authorized up to \$750,000 in proceeds from the sale of state-owned farmland to establish an Agricultural Land Conservation Assistance Grant Program. The program is designed to assist counties with farmland preservation programs in developing Geographic Information Systems (GIS), effective agricultural zoning ordinances, and contracting with consultants (i.e. technicians to monitor soil conservation plans or providing financial implication workshops as a service to applicants). All grants must be used to improve the functioning and effectiveness of county programs.

The grant assistance program provides matching grants of up to \$10,000 to eligible counties. A county is not eligible for more than a cumulative total of \$25,000 in grants under the program.

The bureau distributed \$54,155 to 10 counties in 2013. There is a remaining balance of \$172,749 in the program account, allowing a future round period.

Land Trust Reimbursement Grant Program

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by these nonprofits. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-three land trusts are registered with the state board. As of December 2013, the board awarded \$1,596,308 to 12 trusts for expenses incurred through the preservation of 25,056.53 acres (Table 5, appendix). The acreage preserved through nonprofits does not count toward the state total of preserved land and farms.

Program Participation

The remainder of this annual report consists of tables, graphs and explanatory text that respond directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4.

Agricultural Security Areas

Location

A list of all Agricultural Security Areas (ASA) known to the department is contained in Table 1 (appendix). ASAs are listed alphabetically by county and township.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

In 2013, five townships were newly designated as ASAs, bringing the state totals to 990 ASAs in 65 counties in Pennsylvania.

The location of agricultural conservation easements is contained in Table 2 (appendix). The first two columns list the landowner's name and the county where the easement is located.

Number of Acres

In 2013, 40,030 acres were assigned to ASAs, bringing the total to 3,953,820 enrolled acres.

Conservation Easements

Number of Acres

In 2013, 14,114 acres were placed under agricultural conservation easements. A total of 484,270 acres has been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased as perpetual.

Number of Easements

To date, 4,532 easements have been purchased in Pennsylvania under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 941 county-owned, 1,503 commonwealth-owned, 1,972 jointly-owned agricultural conservation easements, 85 multi-funded easements and 31 easements funded jointly between a county and non-profit or local municipality.

Number and Acres in Each Conservation Easement

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 168 easements totaling 14,114 acres purchased in 2013. There were 157 lump-sum payment purchases, accounting for 93 percent of the easements. The majority of easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were eleven regular installment sales, roughly seven percent. Three installments received 0.0% interest. The interest rate for the remaining regular installment sales was 1.2%.

Number and Value of Easements Purchased

The purchase price of each easement under the program this reporting period is given under column five of Table 2 (appendix). The next two columns present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

1. Commonwealth-Owned Conservation Easements

Fifty-five commonwealth-owned easements were purchased in 2013, covering 4,536 acres with an easement value of \$12,585,808.

2. Joint Commonwealth/County-Owned Conservation Easements

There were 72 state and county jointly-owned easements covering 6,957 acres purchased in 2013. These easements totaled \$18,334,018.

3. Multi- Commonwealth/County/Township-Owned Conservation Easements

In 2013, five multi-owned easements totaling 288 acres and \$1,847,200. were purchased by the commonwealth, counties and townships.

Participating Counties

All 57 counties with appointed boards and active programs were eligible to participate in the 2013 allocation of funds process and are listed in Table 3 (appendix).

County Annual Appropriation

The 2013 appropriations made by counties are listed in Table 3 (appendix), column two, totaling \$15,443,043. Figure 1 (appendix) shows total county appropriation amounts from 1989-2013.

Characteristics of 2013 Preserved Farmland

Quality of Farmlands Subject to Easement

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2013.

In summary, 14,114 acres of land were placed under easement during this reporting period on 168 farms.

National Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 618 acres
- Class II – 6,019 acres
- Class III – 4,602 acres
- Class IV – 2,540 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 335 acres

Soil classes I-IV are well-suited for agricultural production.

A breakdown of the major crops grown on the farms:

- Row Crops – 5,091 acres
- Hayland – 5,040 acres
- Small Grain – 1,919 acres
- Pasture – 2,064 acres

Farms preserved supporting primary livestock operations:

- Dairy – 30 farms
- Beef – 23 farms
- Horses – 2 farms

Nature and Scope of Development Activity

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 50 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

Conservation Practices on Farms Subject to Easement

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2013. All the farmers have developed conservation plans for their farms and are in various stages of implementation. Annual inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans.

SUMMARY OF CONSERVATION PRACTICES ON FARMS WITH CONSERVATION EASEMENTS		
<u>CONSERVATION PRACTICES</u>	<u>NUMBER OF FARMS</u>	<u>PERCENT OF TOTAL FARMS w/EASEMENTS</u>
Conservation tillage	104	62
Contour farming	110	66
Crop rotations	108	64
Crop residue use	55	33
Cover crops	67	40
Diversions	25	15
Streambank protection	24	4
Stripcropping	124	74
Subsurface drainage	8	5
Terraces	13	8
Water control structures	7	4
Waterways	60	36
Animal waste storage	74	44
Nutrient management system	67	40
Pasture and hayland management	100	60

Recommendations for the Purchase of Agricultural Conservation Easements

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (168). None were disapproved.

Conclusion

Over the past year, the Farmland Preservation Program has permanently preserved 14,114 acres of agricultural land on 168 farms. The total cost of this protection in state and counties funds was \$39,767,573. The average price per acre was \$3,800. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 3.8 million acres of land. Of the 57

eligible counties, 54, or 94 percent, appropriated local money for farmland preservation during the 2013 calendar year, amounting to more than \$15.4 million.

In its 25th year, Pennsylvania's farmland preservation program remained an example of successful partnerships between all levels of government and non-profit entities and remains a national model for success in safeguarding prime farmland. An estimated 1,900 eligible farms remain on county backlog lists for 2014, as Pennsylvania celebrates 25 years since its first easements were approved – an ambitious goal for preserving the land that will keep Pennsylvania growing.

County Milestones

Three counties reached important preservation milestones during 2013:

- Lancaster County – 100,000 acres (including those preserved through Lancaster Farmland Trust)
- Adams County – 20,000 acres
- Franklin County – 15,000 acres

State Agricultural Land Preservation Board

as of December 31, 2013

**FARMLAND AND FORESTLAND TAX ASSESSMENT
COUNTY SURVEY**

The Pennsylvania Farmland and Forestland Assessment Act of 1972 as amended requires the Pennsylvania Department of Agriculture to promulgate statewide uniform rules and regulations for implementing the act. In order to insure that the rules and regulations are fair and consistent with the intent of the act, each County Assessor will provide the Pennsylvania Department of Agriculture with the following information.

Form AAO-91 is to be completed by the county assessor or the authorized representative for the calendar year specified above by **January 31, 2014**. Please provide as much information as possible. Use additional sheets if necessary.

- 1.) Is the act being used in your county? _____
- 2.) Total number of landowners participating as of the end of 2013 (cumulative)? _____
- 3.) Total number of parcels enrolled as of the end of 2013 (cumulative)? _____
Number of applications rejected during 2013? _____
- 4.) Number of acres terminated in each category (i.e. Ag Use, Ag Reserve, or Forest Reserve) during 2013:
 - a. Ag Use _____
 - b. Ag Reserve _____
 - c. Forest Reserve _____
- 5.) What were the most common reasons? _____
- 6.) Total dollar amount received in rollback in 2013? _____
- 7.) Total dollar amount received as interest on rollback in 2013? _____
 - a. Are you an eligible county under the Agricultural Area Security Law? _____
 - b. If yes, has ALL rollback interest been appropriated for the purchase of agricultural conservation easements under Section 14.1(h) of Act 43, Agricultural Area Security Law (county participates in Farmland Preservation Program)? _____
 - c. If no, has ALL the rollback interest been forwarded to the State Agricultural Conservation Easement Purchase Fund? _____
- 8.) Total acres enrolled **in each land use category** (cumulative):
Agricultural Use _____ Agricultural Reserve _____
Forest Reserve _____ Total _____
- 9.) What category best describes the Ag Use and Ag Reserve Use Values in your county?
 - a. 2013 use values provided by the Commonwealth
 - b. Base-year use values, provided by the Commonwealth, in a previous year
What year? _____
 - c. Use values derived by the county, a consultant, or other means (please explain)

- 10.) What category best describes the Forest Reserve Use Values in your county?
- a. 2013 use values provided by the Commonwealth (county average value used)
 - b. 2013 use values provided by the Commonwealth (6 timber-type values used)
 - c. Base year use values, provided by the Commonwealth, in a previous year (county average value used) What year? _____
 - d. Base year use values provided by the Commonwealth, in a previous year (6 timber-type values used) What year? _____
 - e. Use values derived by the county, a consultant, or other means (please explain)
- 11.) In what year was your county last reassessed? _____
- 12.) How many appeals involving Clean and Green applications or assessments were made to either the Board of Assessment Appeals or to the Court of Common Pleas during 2013?
Board of Assessment Appeals _____ Court of Common Pleas _____
- 13.) Do you know the difference in the county's assessed value and the value of preferential assessments in 2013? If so, please provide that information.
- a. County Assessed Value _____
 - b. Value of Preferential Assessments _____
- 14.) Please provide the name, address, and phone number of the current county assessor.
- | | |
|----------------|-----------------------------|
| (printed name) | (address) |
| (signature) | (city, state, and zip code) |
| (telephone) | (e-mail) |
- 15.) Please name the person other than the county assessor completing this form, if applicable.

LAND TRUST REIMBURSEMENT GRANT PROGRAM

Background: Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

Objective: To accelerate the Farmland Preservation activity by developing partnerships with Land Trusts.

Status: 02/13/2014 State Board Meeting

Land Trusts registered with the State Board (23):

Adopt An Acre, Inc.
Allegheny Land Trust
Berks County Conservancy
Brandywine Conservancy
Central Pennsylvania Conservancy
Centre County Farmland Trust
Countryside Conservancy
Delaware Highlands Conservancy
Farm and Natural Lands Trust of York County
French and Pickering Creeks Conservation Trust, Inc.
Heritage Conservancy
Lancaster Farmland Trust
Land Conservancy of Adams County
Lebanon Valley Conservancy, Inc.
Manada Conservancy
Merrill W. Linn Conservancy
Montgomery County Lands Trust
Natural Lands Trust, Inc.
North Branch Land Trust
Pennsbury Land Trusts, Inc.
Pittsburgh History & Landmarks Foundation
Western Pennsylvania Conservancy
Wildlands Conservancy

Application Reimbursements (13):

Adopt An Acre, Inc.	31 acres	5,500.00
Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	2067 acres	\$122,754.56
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	432 acres	\$15,000.00
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	3976 acres	\$191,564.99
Lancaster Farmland Trust	13145 acres	\$1,067,117.74
Land Conservancy of Adams County	4239 acres	\$176,917.22
Lebanon Valley Conservancy, Inc.	416 acres	\$5,711.87
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00
<u>TOTALS (366 easements)</u>	<u>25,953 ACRES</u>	<u>\$1,660,564.23</u>
