State Agricultural Land Preservation Board.....	15

Overview

Pennsylvania is home to 7.8 million acres of farmland, from which the state's 63,000 hardworking farm families provide safe and affordable food, fiber and fuel to people throughout the world. Agriculture is the state's leading economic enterprise, with the sale of agricultural products contributing \$6.1 billion to the state's economy each year. Additionally, one-in-seven jobs are related to agriculture, accounting for approximately 14 percent of the state's employment opportunities.

This vibrant agriculture industry is a reflection of Pennsylvania's agrarian heritage, but more importantly it represents a growing and evolving industry that will play a critical role in Pennsylvania's future.

Critical to the future of our agricultural industry and our ability to produce food and fiber for our citizens is the preservation of the farmland that sustains us. As farmers face increased development pressures and economy-driven financial stresses, the challenge to keep land in production agriculture grows.

The Pennsylvania Department of Agriculture Bureau of Farmland Preservation exists to ensure Pennsylvania's number one economic enterprise – agriculture – continues to thrive by administering programs that keep prime agricultural lands available for production agriculture in perpetuity – forever. The decision to preserve a farm is an enormous commitment that more than 4,000 Pennsylvania farm families have made.

With a staff of three full-time and two part-time individuals, the bureau provides administrative and technical support to 57 county farmland preservation programs and oversees the distribution of funds set aside for preservation purposes.

In June 2010, the state Agricultural Land Preservation Board made history by preserving the 4,000th farm. The milestone event was held in Lebanon County on the Charles and Susan Zimmerman Farm.

The Pennsylvania Agricultural Conservation Easement Purchase Program is first in the nation in number of farms and acres preserved. In 2010, 168 farms were preserved by permanent agricultural easements. A preservation milestone of 450,000 acres was reached at the time of this reporting, in April 2011.

Bureau Activities

The bureau reviews easement recommendations for state board approval, provides guidance to counties on issues related to preserved farms, and facilitates outreach to many stakeholders.

The bureau continued its public information and training efforts in 2010. At the conclusion of State Agricultural Land Preservation Board meetings, the bureau conducted a series of round-table meetings for county administrators and board members to communicate issues surrounding farmland preservation. The continuation of these discussions is already underway in 2011.

Additionally, the third edition of *A Guide to Farmland Preservation* remains available to county administrators, assuring the most up-to-date, accurate and easily understandable information is available to administer programs. The bureau is also moving forward with efforts to automate its easement purchase recommendation submittal system to make processing more efficient and less costly, with a target completion date of May 2011. Currently, the process of preserving a farm through the program requires a significant amount of paperwork. When complete, the

project will reduce paperwork and result in a cost savings for the commonwealth and counties.

The bureau is empowered through the Farmland Preservation Program, Act 149 of 1988, as amended. Section 14.4 of Act 149 requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

This report covers the activities of the bureau and board from Jan. 1 – Dec. 31, 2010.

Program Implementation

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county and local governments to purchase conservation easements, sometimes called development rights, from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed agricultural land preservation boards. A state board is responsible for distribution of state funds, approval and monitoring of county programs, boards and specific easement purchases.

An Agricultural Security Areas (ASA) designation is a tool for strengthening and protecting quality farmland from the urbanization of rural areas. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be harvested cropland, pasture or grazing land. Farms are evaluated by county officials according to soil quality, stewardship and development pressure. Each farm is ranked and placed on a waiting list according to its ranking. Approximately two-thirds of the farms on the list do not get preserved due to funding limitations.

In 2010, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 34 of the 57 counties participating in the farmland preservation program. The state board approved for purchase 168 easements of various ownership combinations – state, county, local government and non-profit.

In June 2010, the program reached 4,000 preserved farms, a milestone that would not have been reached without the Growing Greener 2 County Environmental Initiative. The Growing Greener 2 bond was approved overwhelmingly by voters in May of 2005. The initiative has resulted in the commonwealth investing \$625 million toward environmental concerns, including \$80 million for farmland preservation. Growing Greener 2 greatly accelerated the rate of easement purchases. Funds contributed to the preservation of 33,713 additional acres.

Of the 57 counties eligible to participate in the program, 53 appropriated \$17 million in local matching funds for the 2010 calendar year (Figure 1, appendix). The state board approved an easement purchase threshold of \$20 million for 2010. (Figure 2, appendix)

Funding

Pennsylvania's farmland preservation program purchases development rights of farms through conservation easements. The easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, installments over a period of five years, or on a long-term installment basis. Many farmers use the proceeds from easement sales to reduce debt loads, expand operations and as financial resources that can help assure the transition of the farm to the next generation.

To purchase these easements and secure land for Pennsylvanians to farm in the future, a source of funding for the conservation easement purchase program was dedicated in July 1993 with the collection of a percentage of a two-cent tax on each package of cigarettes sold in Pennsylvania. In 2002, the provisions of the cigarette tax revenue were changed to provide greater program fund stability by setting aside a flat appropriation. As a result, approximately \$20.5 million per year is now earmarked for the preservation of farmland, diminishing concerns about the sustainable nature of the cigarette tax revenues for the program.

In 2005, the farmland preservation program was granted a second dedicated funding source, with 14.8 percent of the proceeds of the Environmental Stewardship Fund made available each year for the purchase of easements. The reallocation of these funds to include farmland preservation was in coordination with the Growing Greener 2 initiative. In 2010, the Environmental Stewardship Fund provided \$4.6 million to the farmland preservation program.

The total investment in farmland preservation in 2010 was \$ 57,839,811, including federal, state, county and local dollars.

Under the provisions of Act 96 of 1994, the funding formula for county allocation of funds was revised. Instead of funding all 67 counties in the commonwealth, the allocation of funds is now available only to those counties having programs approved by the state agricultural land preservation board by Jan. 1 of each year. In 2010, 57 counties received allocated funds for easement purchase.

In 2010, many of the 57 counties appropriated funding for preservation purposes, totaling \$17 million. Counties that set aside funding received a state match based on a funding formula. All of the counties with approved programs received a state grant. The state's total allocation was \$20 million in 2010.

As previously stated, the Growing Greener 2 funds provided a significant increase in program spending. In 2006, \$65 million was included in the state spending

threshold; in 2007, \$4 million was included; and \$9.52 million was made available to counties through block grants. The remaining \$1.48 million was used toward the 2008 spending threshold. All Growing Greener 2 funds have been spent or obligated.

Public Information and Training

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation is committed to protecting the state's farmland from irresponsible development. Part of this commitment involves empowering county programs with accurate information and readily-available resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

The bureau's three full-time and two part-time staff members support the 57 counties with approved programs by interpreting legislation, providing sample documents, meeting with appraisers, reviewing easement documents and giving administrative guidance.

In 2010, several one-on-one training sessions were conducted for newer county administrators in Harrisburg. The bureau attended and participated in other meetings held by the Pennsylvania Farmland Preservation Association, an organization comprised of county farmland preservation program administrators who are dedicated to promoting and enhancing the interests of agricultural land preservation in the state.

The third edition of *A Guide to Farmland Preservation* was updated and distributed to counties several years ago. The revised book features instructional text and document examples in a more user-friendly format than previous editions. In addition to being provided to state board members and county administrators in print, the guidebook is available to the public on compact disk or on the department's website at www.agriculture.state.pa.us.

To improve efficiency and reduce administrative costs associated with the farmland preservation review and approval process, the bureau continued working on a project to automate the easement purchase recommendation process in 2010. The process will be modified to include the use of a web-based program to complete and file forms with the bureau for review and the state board for approval. The new program will eliminate excessive paperwork, reducing costs and maximizing efficiency.

In 2010, the Bureau of Farmland Preservation continued hosting round-table meetings following state board meetings for county administrators and board members. Topics for discussion included:

- Panel discussion with preserved farm owners on current issues facing agriculture;
- Chesapeake Bay strategy and opportunities for preserving farms;
- Preserved farms and energy production; and

- Land Trust partnerships in farmland preservation.

Bureau staff provided public outreach at the 2010 Pennsylvania Farm Show in Harrisburg, and Penn State's Ag Progress Days in Rock Springs, Centre County.

In 2010 the bureau taught several Clean and Green program classes to county tax assessors at regional and statewide conferences. In addition, the bureau facilitated a training session in early 2011 for county assessors and other stakeholders on recent changes to the legislation.

In December, the department, in partnership with Farm Journal Media, hosted the Legacy Project Workshop with foremost succession planning expert Kevin Spafford. The workshop targeted 200 preserved farm owners, providing valuable information on conveying the family farm to the next generation. In addition, the bureau partnered with the Center for Farm Transitions in conducting several workshops across the state for preserved farm owners.

Marcellus Shale Gas Leasing and Drilling and Alternative Energy Production

Under much of Pennsylvania's fertile farmlands lie large amounts of natural gas. The Marcellus Shale Natural Gas Field Formation extends through Pennsylvania, New York, Ohio and West Virginia, and lies 5,000 to 8,000 feet below the surface. According to a Pennsylvania State University study, this formation could hold 363 trillion cubic feet of recoverable natural gas from the 31-million-acre core area of the Marcellus region; the United States consumes 23 trillion cubic feet of natural gas annually.

Owners of property who have sold their development rights under Pennsylvania's farmland preservation program retain the right to enter into oil and gas leases. This allows for the construction of roadways and other infrastructure necessary for the removal of oil and gas from the property. Property owners are encouraged to notify the county farmland preservation board when they receive offers to enter into gas leases. The county board can provide information regarding what terms to protect farmland have been included in other leases in the county and financial compensation.

The Clean and Green Act of 1974, which protects farmland, forestland and open space by allowing for land taxation according to its use-value rather than the prevailing market value, was amended in 2010 to allow for oil and gas development with rollback taxes due on the portions of property devoted to that activity upon the completion of a well site restoration report. The law was also amended to allow for commercial wind production with rollback taxes due on the portions devoted to that activity. In addition, tier one alternative energy systems are permitted without rollback taxes if the majority of energy is utilized on the enrolled tract.

Similarly, most county farmland preservation programs permit alternative energy if the majority of the energy is used on the farm. Several county programs were amended in recent years to permit farm-based renewable energy even if the majority of the energy is sold, provided any associated structures are located within the existing farmstead land.

Clean and Green Program

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, protects farmland, forestland and open space by allowing for land taxation according to its use value rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its 36-year history, the program has been vastly successful in achieving this goal.

Enrolled land is assessed according to the income approach to land appraisal – the amount of income the land is capable of producing at its highest and best agricultural use. The trend in recent years has been for the use values to increase. The county may establish use values that are lesser than the department's. In 2010, the bureau formed a work group consisting of stakeholders from the Penn State University College of Agricultural Sciences, Pennsylvania Farm Bureau, Pennsylvania Grange, Pennsylvania County Assessors Association, Pennsylvania County Commissioner's Association and North Central Pennsylvania Forest Landowners Association to discuss the use value methodology.

The program has widespread participation, with 9.4 million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is nearly 50 percent – a great incentive to keep the land undeveloped. The program is voluntary and generally requires a minimum of ten acres remaining in one of three designated use categories – agricultural, agricultural reserve and forest reserve.

Agricultural use describes land used to commercially produce agricultural commodities. Agricultural reserve includes noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge. Forest reserve describes the use of 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use becomes subject to a roll-back tax imposed for up to seven years, plus six percent interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the act at the county level. The bureau provides for uniform interpretation of the act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to annually submit information on the extent of Clean and Green Act participation

within their counties to the department. To facilitate this process, the department surveyed each county on their Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included as Exhibit A (appendix).

2010 Clean and Green Survey Results

Administration

The 2010 survey forms were mailed to all 67 counties, and 65 responded to the survey. Fifty-five counties, or 82 percent, participated in the Clean and Green program. Table 6 (appendix) depicts those counties reporting participation during 2010.

Table 7 (appendix) summarizes the statistical data of participation. The number of parcels reported enrolled by each county in 2010 was 175,810; the acreage enrolled was reported as 9,460,885.

Table 8 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include: a split-off/subdivision between two and ten acres; a change in use of the enrolled property that is inconsistent with the eligibility requirements; sale of enrolled property for residential development; establishment of a commercial activity not consistent with the allowable rural enterprise; and posting land enrolled in the agriculture reserve category.

Table 9 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use, transfer of land, and voluntary rollbacks.

Table 10 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes shall be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund.

Table 11 (appendix) lists the manner in which Act 319 use-values were determined by the responding counties. The agriculture department provides county-specific use values annually. The county has the option of establishing a base year to calculate the preferential assessment, using the department-provided use values, or determining a lower use county value.

Table 11 also lists how counties assess the forest reserve county average values. The department, with assistance from the state Department of Conservation and Natural Resources Bureau of Forestry, provides values based on the average value of timber in a particular county and the average value of six timber types.

Federal Farmland Protection Program

The Federal Farm and Ranchlands Protection Program (FRPP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses land owners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

In 2010, the Pennsylvania's farmland preservation program received more than \$3.9 million in funding from the FRPP. More than 2,800 acres on 24 farms in 11 counties were selected to participate in the program in 2010.

Since 1996, the FRPP has provided more than \$27 million in funding to the state easement purchase program in Pennsylvania. This funding was utilized to preserve more than 34,000 acres throughout the commonwealth.

Century and Bicentennial Farm Programs

Pennsylvania's Century and Bicentennial Farm programs are aimed at emphasizing the importance of the state's economic and rural heritage and traditions. The programs demonstrate the importance of agriculture, specifically the family farm, to all citizens of the commonwealth.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Secretary of Agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The bicentennial farm program is ruled by similar standards as the century farm program.

In 2010, 18 Century Farms and three Bicentennial Farms were recognized. Four of these designations were presented to families at the 2010 Pennsylvania Farm Show and four were presented at Penn State's Ag Progress Days. To date, the Department of Agriculture has recognized 2,020 century and bicentennial farms.

Grant Programs

Agricultural Land Conservation Assistance Grant Program

Act 99 of 1994 authorized up to \$750,000 in proceeds from the sale of state-owned farmland to establish an Agricultural Land Conservation Assistance Grant Program. The program is designed to assist counties with farmland preservation programs in developing Geographic Information Systems (GIS); effective agricultural zoning ordinances; and contracting with consultants (i.e. technicians to monitor soil conservation plans or providing financial implication workshops as a service to applicants). All grants must be used to improve the functioning and effectiveness of county programs.

The grant assistance program provides matching grants up to \$10,000 to eligible counties. A county is not eligible for more than a cumulative total of \$25,000 in grants under the program.

No grants were awarded in 2010. There is a remaining balance of \$198,218.75 in the program account.

Land Trust Reimbursement Grant Program

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant program.

The grant authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements. The grant covers expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing.

Twenty-three land trusts are registered with the state board. As of December 2010, the board awarded \$1,213,071.93 to 11 trusts for expenses incurred through the preservation of 19,786 acres. (Table 5, appendix)

Program Participation

The remainder of this annual report consists of tables, graphs, and explanatory text that respond directly to the requirements of Section 14.4 (Legislative Report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are keyed to the numbered paragraphs of Section 14.4.

Agricultural Security Areas

Location

A list of all Agricultural Security Areas (ASA) known to the Department of Agriculture is contained in Table 1 (appendix). ASA's are listed alphabetically by county and township. Data in Table 1 is obtained from a variety of sources, usually township secretaries, and may not reflect exact totals.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

In 2010, two townships were designated as ASA's, bringing the state totals to 980 ASA's in 65 counties in Pennsylvania.

The location of agricultural conservation easements is contained in Table 1 (appendix). The first two columns list the landowner's name and the county where the easement is located.

Number of Acres

In 2010, 94,978 acres were assigned to ASA's, bringing the total to 3,801,038 enrolled acres.

Conservation Easements

Number of Acres

In 2010, 15,939 acres were placed under agricultural conservation easements. A total of 444,647 acres has been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased as perpetual.

Number of Easements

To date, 4,096 easements have been purchased in the Pennsylvania under the authority of Act 149 of 1988. There may be other agricultural conservation easements in the commonwealth, but they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 846 county-owned, 1,371 Commonwealth-owned, 1,791 jointly-owned agricultural conservation easements, 69 multi-funded easements and 19 easements funded jointly between a county and non-profit or local municipality.

Number and Acres in Each Conservation Easement

Table 2 (appendix) lists the number and acres for each easement purchased during the reporting period. There were 168 easements with 15,939 acres purchased in 2010. There were 166 lump-sum payment purchases, accounting for 99 percent. The majority of easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were two regular installment sales, or one percent. One of the two regular installments received 0% interest. The interest rate for the remaining regular installment was 2%.

Number and Value of Easements Purchased

The purchase price of each easement under the program this reporting period is given under column 5 of Table 2 (appendix). The next two columns present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

1. Commonwealth-Owned Conservation Easements

Thirty-one commonwealth-owned easements were purchased in 2010, covering 2,970 acres with an easement value of \$9,711,822.16.

2. Joint Commonwealth/County-Owned Conservation Easements

There were 69 state and county jointly-owned easements covering 7,460 acres purchased in 2010. These easements totaled \$24,154,437.84.

3. Multi- Commonwealth/County/Township-Owned Conservation Easements

In 2010, five multi-owned easements totaling 485 acres were purchased by the commonwealth, counties and townships. These easements have a total value of \$4,374,928.25.

Participating Counties

All counties eligible to participate in the 2010 allocation of funds process are listed on Table 3 (appendix). Counties listed on Table 3 have an appointed board and are implementing programs. All counties with county boards also have approved programs. Fifty-seven counties have actually purchased conservation easements.

County Annual Appropriation

The 2010 appropriations made by counties are listed in Table 3 (appendix), column 2, "County Approp." The total county appropriation among 57 counties is \$17,047,576. Figure 1 (appendix) shows the total county appropriation amounts from 1989-2010.

Characteristics of 2010 Preserved Farmland

Quality of Farmlands Subject to Easement

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from Jan. 1 – Dec. 31, 2010.

In summary, there were 15,939 acres of land placed under easement during this reporting period.

National Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 553 acres
- Class II – 7,901 acres
- Class III – 4,733 acres
- Class IV – 2,088 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 664 acres

Soil classes I-IV are well-suited for agricultural production.

The following are the acres of the major crops grown on the 168 farms preserved:

- Row Crops – 6,288 acres
- Hayland – 5,896 acres
- Small Grain – 2,008 acres
- Pasture – 1,747 acres

The numbers of farms under easement supporting the following primary livestock operations:

- Dairy – 44 farms
- Beef – 34 farms
- Horses – one farm
- Swine – four farms

Nature and Scope of Development Activity

The likelihood of development was generally moderate to high in the areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 50 percent of the areas under easement purchase.

Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

Conservation Practices on Farms Subject to Easement

The summary that follows presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2010. All the farmers have developed conservation plans for their farms and are in various stages of implementation. Annual inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans.

<u>CONSERVATION PRACTICES</u>	<u>NUMBER OF FARMS</u>	<u>PERCENT OF TOTAL FARMS w/EASEMENTS</u>
Conservation Tillage	127	76
Contour Farming	118	70
Crop Rotations	111	66
Crop Residue Use	70	42
Cover Crops	79	47
Diversions	34	20
Streambank Protection	30	18
Strip Cropping	114	68
Subsurface Drainage	10	6
Terraces	8	5
Water Control Structures	8	5
Waterways	69	41
Animal Waste Storage	67	40
Nutrient Management System	72	43
Pasture and Hayland Management	104	62

Recommendations for the Purchase of Agricultural Conservation Easements

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (168). None have been disapproved.

Conclusion

Implementation of the Farmland Preservation Program over the past year has resulted in the permanent preservation of 15,939 acres of agricultural land on 168 farms in 34 counties. The total cost of this protection was approximately \$57,839,811. The average price per acre was \$3,531.

Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 3.8 million acres of land. Of the 57 eligible counties 51, or 89 percent, appropriated local money for farmland preservation during the 2010 calendar year, amounting to more than \$17 million.

Pennsylvania's farmland preservation program remains a shining example of what is accomplished through successful partnerships between all levels of government and non-profit entities and is a national model for success.

2010 Highlights

Pennsylvania Preserves It's 4,000th Farm

In June 2010 the State Agricultural Land Preservation Board recognized the preservation of 4,000 farms. Pennsylvania's Farmland Preservation program continues to lead the nation in the number of farms and acres preserved.

County Milestones

Several counties reached important milestones during 2009. They include:

- Lehigh County – 20,000 acres preserved
- Westmoreland County – 10,000 acres preserved

State Agricultural Land Preservation Board

as of Dec. 31, 2010

DEPARTMENT OF AGRICULTURE

BUREAU OF FARMLAND PRESERVATION

TO: County Assessors

FROM: Douglas M. Wolfgang, Director
Bureau of Farmland Preservation

DATE: December 14, 2010

RE: CLEAN AND GREEN SURVEY FORM – Tax Year 2010

Attached you will find the Clean and Green survey form for Tax Year 2010 to print, complete, and mail, fax (717-772-8798), or scan and e-mail to mahanshue@state.pa.us.

Act 235 of 2004 requires this information to be sent to the Pennsylvania Department of Agriculture by January 31, 2011.

This form will not be sent via U.S. mail.

Please contact me if you have problems accessing the survey form or if you have questions regarding the form.

Thank you for your participation.

**FARMLAND AND FORESTLAND TAX ASSESSMENT
COUNTY SURVEY**

The Pennsylvania Farmland and Forestland Assessment Act of 1972, revised in 1998, 2004 and 2010 require the Pennsylvania Department of Agriculture to promulgate statewide uniform rules and regulations for implementing the act. In order to insure that the rules and regulations are fair and consistent with the intent of the act, each County Assessor will provide the Pennsylvania Department of Agriculture with the following information.

Form AAO-91 is to be completed by the county assessor or the authorized representative for the calendar year specified above by January 31, 2011. Please provide as much information as possible. Use additional sheets if necessary.

- 1.) Is the act being used in your county? _____
- 2.) Total number of landowners participating as of the end of 2010 (cumulative)? _____
- 3.) Total number of parcels enrolled as of the end of 2010 (cumulative)? _____
Number of applications rejected during 2010? _____
- 4.) Number of acres terminated in each category (i.e. Ag Use, Ag Reserve, or Forest Reserve) during 2010:
 - a. Ag Use _____
 - b. Ag Reserve _____
 - c. Forest Reserve _____
- 5.) What were the most common reasons? _____
- 6.) Total dollar amount received in rollback in 2010? _____
- 7.) Total dollar amount received as interest on rollback in 2010?
 - a. Are you an eligible county under the Agricultural Area Security Law? _____
 - b. If yes, has ALL rollback interest been appropriated for the purchase of agricultural conservation easements under Section 14.1(h) of Act 43, Agricultural Area Security Law (county participates in Farmland Preservation Program)? _____
 - c. If no, has ALL the rollback interest been forwarded to the State Agricultural Conservation Easement Purchase Fund? _____
- 8.) Total acres enrolled in each land use category (cumulative):
Agricultural Use _____ Agricultural Reserve _____
Forest Reserve _____ Total _____
- 9.) What category best describes the Ag Use and Ag Reserve Use Values in your county?
 - a. 2010 use values provided by the Commonwealth
 - b. Base-year use values, provided by the Commonwealth, in a previous year
What year? _____
 - c. Use values derived by the county, a consultant, or other means (please explain)

- 10.) What category best describes the Forest Reserve Use Values in your county?
- 2010 use values provided by the Commonwealth (county average value used)
 - 2010 use values provided by the Commonwealth (6 timber-type values used)
 - Base year use values, provided by the Commonwealth, in a previous year (county average value used) What year? _____
 - Base year use values provided by the Commonwealth, in a previous year (6 timber-type values used) What year? _____
 - Use values derived by the county, a consultant, or other means (please explain)

11.) In what year was your county last reassessed? _____

12.) How many appeals involving Clean and Green applications or assessments were made to either the Board of Assessment Appeals or to the Court of Common Pleas during 2010?
Board of Assessment Appeals _____ Court of Common Pleas _____

13.) Do you know the difference in the county's assessed value and the value of preferential assessments in 2010? If so, please provide that information.

- County Assessed Value _____
- Value of Preferential Assessments _____

14.) Please provide the name, address, and phone number of the current county assessor.

(printed name)

(address)

(signature)

(city, state, and zip code)

(telephone)

(e-mail)

15.) Please name the person other than the county assessor completing this form, if applicable.

(printed name)

(signature)

PLEASE RETURN BY JANUARY 31, 2011 TO:

(REV. 04/2711)

TABLE 5**LAND TRUST REIMBURSEMENT GRANT PROGRAM**

Background: Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

Objective : To accelerate the Farmland Preservation activity by developing partnerships with Land Trusts.

Status : 12-9-10 State Board Meeting

Land Trusts registered with the State Board (23):

Adopt An Acres, Inc.
 Allegheny Land Trust
 Berks County Conservancy
 Brandywine Conservancy
 Central Pennsylvania Conservancy
 Centre County Farmland Trust
 Countryside Conservancy
 Delaware Highlands Conservancy
 Farm and Natural Lands Trust of York County
 French and Pickering Creeks Conservation Trust, Inc.
 Heritage Conservancy
 Lancaster Farmland Trust
 Land Conservancy of Adams County
 Lebanon Valley Conservancy, Inc.
 Manada Conservancy
 Merrill W. Linn Conservancy
 Montgomery County Lands Trust
 Natural Lands Trust, Inc.
 North Branch Land Trust
 Pennsbury Land Trusts, Inc.
 Pittsburgh History & Landmarks Foundation
 Western Pennsylvania Conservancy
 Wildlands Conservancy

Application Reimbursements (11):

Berks County Conservancy	168 acres	\$9,945.30
Brandywine Conservancy	2067 acres	\$122,754.56
Central Pennsylvania Conservancy	849 acres	\$40,981.50
Centre County Farmland Trust	147 acres	\$5,000.00
Delaware Highlands Conservancy	307 acres	\$10,000.00
Farm and Natural Lands Trust of York County	3511 acres	\$166,564.99
Lancaster Farmland Trust	9065 acres	\$708,220.48
Land Conservancy of Adams County	3349 acres	\$134,534.05
Montgomery County Lands Trust	57 acres	\$4,104.27
Natural Lands Trust	197 acres	\$4,988.78
Wildlands Conservancy	69 acres	\$5,978.00
TOTALS (274 easements)	19,786 ACRES	\$1,213,071.93
