Overview

Pennsylvania is home to 7.8 million acres of farmland, from which the state's more than 59,000 hardworking farm families provide safe and affordable food, feed, fiber, and fuel to people throughout the world. Agriculture is a leading economic enterprise in Pennsylvania, with the sale of agricultural products contributing \$8.3 billion to the state's economy last year. Additionally, one in seven jobs is related to agriculture, accounting for approximately 14 percent of the state's employment opportunities. This vibrant industry is a reflection of Pennsylvania's agrarian heritage and represents a growing industry that plays a critical role in Pennsylvania's future.

Preserving Pennsylvania's farmland is essential for the future of our agriculture industry and our ability to produce homegrown food and fiber for our citizens. Pennsylvania is within a day's drive of a large percentage of our nation's growing population, which will forever rely upon a safe and abundant food supply. The commonwealth has some of the most fertile non-irrigated soils found anywhere in the nation. At the same time, development pressures are significant in regions throughout Pennsylvania. As farmers face mounting development pressures and financial challenges, it becomes increasingly difficult to keep agriculture land in production.

The Pennsylvania Department of Agriculture's Bureau of Farmland Preservation administers programs that keep prime agricultural lands available for production agriculture in perpetuity. The decision to preserve a farm is an enormous commitment that has been made by nearly 5,000 Pennsylvania farm families to date.

Pennsylvania's Agricultural Conservation Easement Purchase Program leads the nation in the number of farms and acres preserved. In 2015, 160 additional farms were preserved by permanent agricultural easements.

Bureau Activities

With four full-time staff members, the bureau provides administrative and technical support to 57 counties that participate in farmland preservation programs, and the bureau oversees the distribution of funds set aside for preservation purposes.

The bureau reviews easement recommendations for state board approval, provides guidance to counties on issues related to preserved farms, and facilitates outreach to stakeholders. The bureau continued public information and training efforts in 2015, which are detailed on page five of this report.

The bureau is empowered through the Farmland Preservation Program, Act 149 of 1988, as amended. Section 14.4 of Act 149 requires the State Agricultural Land Preservation Board to describe all relevant activities of the program for the preceding calendar year in an annual report.

This report covers the activities of the bureau and board from January 1 through December 31, 2015.

Preserved Farms Resource Center

With the average age of Pennsylvania's farm owners approaching 58 years old, the ability of our industry to continue to thrive rests on the ability of individual farms to transition to the next generation. A variety of resources and education are needed to help farm families work through the difficult process of creating and implementing a farm succession plan – whether the farm

stays in the family, or the farm transitions to non-family members. Without adequate succession planning, farms are at greater risk of going out of business or being converted to non-farm uses. By creating a succession plan, a family's vision and intentions for their farm can be addressed and implemented purposefully. To date, more than 1,000 of the nearly 5,000 preserved farms in Pennsylvania have changed hands and made some sort of transition.

The Preserved Farms Resource Center was created in 2015 to facilitate business transition and succession planning for Pennsylvania's growing number of preserved farms. It will complement the work of the bureau and the Pennsylvania State Agricultural Land Preservation Board, which safeguards prime agricultural land in perpetuity.

The center will assist farm owners by coordinating the development of a total farm team to facilitate the transition/succession and business planning process for farm families. This process will be implemented by a team of professionals with expertise in farm transition planning, tailored to the specific needs of each farm. Team members may include facilitators, attorneys, accountants, financial planners, lenders, conservation and nutrient management planners and other professionals who can provide expertise in the process.

Workshops for preserved farm owners are underway in 2016.

Program Implementation

The Pennsylvania Agricultural Conservation Easement Purchase Program was developed in 1988 to help slow the loss of prime farmland to non-agricultural uses. The program enables state, county and local governments to purchase conservation easements – sometimes called development rights – from farm owners. The first easements were purchased in 1989.

Counties participating in the program have appointed agricultural land preservation boards. A state board is responsible for distribution of state funds and approval and monitoring of county programs, boards, and specific easement purchases.

A farm's first step in becoming preserved is enrolling in an Agricultural Security Area (ASA), which protects the farm against local ordinances and nuisance lawsuits that would affect normal farming activities and provides special consideration in review of farmland condemnation by state and local government agencies. An ASA qualifies land for consideration under the easement purchase program at the landowner's request if the ASA has at least 500 acres enrolled.

In addition to being part of an ASA, farms considered for easement purchase must be in active agricultural use. Farms are evaluated by county officials according to soil quality, stewardship, and development pressure. Each farm is ranked and placed on a waiting list according to its ranking. Even with nearly 5,000 farms preserved, roughly 1,500 eligible farms remain on county backlog lists.

In 2015, the State Agricultural Land Preservation Board met six times to consider individual easement purchases submitted by 38 of the 57 counties participating in the farmland preservation program. The state board approved for purchase 160 easements of various ownership combinations from state, county and local governments, as well as non-profits. Easements totaled 13,751 acres.

Funding

Conservation easements allow property owners to retain title, pass the property to heirs, or sell the property, while still maintaining agricultural use of the land. Many farmers use the proceeds from easement sales to reduce debt loads, expand operations, or to help ensure that the transition of the farm to the next generation. Farmers may choose to receive the proceeds from easement sales in a lump sum payment, installments over a period of five years, or on a long-term installment basis.

To purchase these easements and secure land for Pennsylvanians to farm in the future, a dedicated funding source for the conservation easement purchase program was established in July 1993 with a two-cent per pack tax on cigarettes sold in Pennsylvania. In 2002, this was changed to provide greater program fund stability by setting aside a flat appropriation. As a result, approximately \$20.5 million per year is now earmarked for the preservation of farmland.

In 2005, the farmland preservation program was granted a second dedicated funding source, with 14.8 percent of the proceeds of the Environmental Stewardship Fund made available each year for the purchase of easements. Act 25 of 2016 (the fiscal code) increased this amount to 18.7 percent for FY 2015-16. The reallocation of these funds to include farmland preservation was in coordination with the Growing Greener 2 bond initiative. In 2014, the Environmental Stewardship Fund provided \$9.2 million to the farmland preservation program.

The total investment in Pennsylvania farmland preservation in 2015 was \$53,147,665, including federal, state, county and local dollars.

Under the provisions of Act 96 of 1994, the funding formula for county allocation of funds was revised. Instead of funding all 67 counties in the commonwealth, the allocation of funds is available only to those counties having programs approved by the state agricultural land preservation board by January 1 of each year. In 2015, 57 counties received allocated funds for easement purchase.

Fifty-five of the 57 counties appropriated funding for preservation purposes, totaling \$14.7 million in local matching funds for the 2015 calendar year (Appendix – Figure 1). Counties that set aside funding received a state match based on a funding formula. All of the counties with approved programs received a state grant. The state's total allocation was \$30 million in 2015 (Appendix, Figure 2).

Public Information and Training

Part of the bureau's commitment to protecting the state's farmland from development involves providing county programs with accurate information and resources to submit easement purchases to the State Agricultural Land Preservation Board for approval.

Bureau staff support the 57 counties with approved programs by interpreting legislation, reviewing county program manuals, providing sample documents, meeting with appraisers, reviewing easement documents and offering administrative guidance.

The bureau routinely conducts roundtable sessions for county administrators and board members to communicate issues surrounding farmland preservation.

In 2015, the bureau conducted several individual training sessions for county administrators. The bureau also participated in other meetings conducted by the Pennsylvania Farmland Preservation Association, an organization comprised of county farmland preservation program administrators dedicated to promoting and enhancing the interests of agricultural land preservation in the state. This outreach helps to ensure that county staff have a comprehensive understanding of the program and strengthens the relationships between bureau staff and those they assist.

The bureau is currently revising *A Guide to Farmland Preservation*. The third edition of the guide is available on the department's website, www.agriculture.pa.gov, by searching "guide."

PA Farmland, a web-based program, automates and streamlines the process of submitting farms for easement recommendation, saving time and resources and cutting administrative costs. The bureau is working with the department's Office of Information Technology on phase two of the project to incorporate financial tracking and inspection forms, further reducing paperwork and improving efficiency.

Bureau staff provided public outreach at the 2015 Pennsylvania Farm Show in Harrisburg, Dauphin County, and Ag Progress Days in Rock Springs, Centre County.

In 2015, the bureau taught five Clean and Green program classes to county tax assessors at regional and statewide conferences. In addition, the bureau regularly attends meetings conducted by the Assessors Association of Pennsylvania's Clean and Green committee.

Additionally in 2015, bureau staff met routinely with farmers and stakeholders on topics related to farmland preservation and Pennsylvania agriculture, including the gas pipeline industry to discuss impacts of proposed pipeline projects on productive farmland. The bureau presented at a land use conference sponsored by Ontario Land Trust at University of Guelph, Ontario, Canada. The bureau also presented at the American Farmland Trust's annual conference in Lexington, Kentucky.

The bureau met with Clearfield County officials to begin implementation of a county farmland preservation program, which will officially become the 58th program in 2016.

Clean and Green Program

The Pennsylvania Farmland and Forest Land Assessment Act of 1974, also known as the Clean and Green Act, or Act 319, protects farmland, forestland and open space by allowing for land taxation according to its value as-used rather than the prevailing market value. The effect of Clean and Green on the overall farmland preservation effort is widespread, as affordable property taxes are essential to maintaining viable farms. In its 40-year history, the program has been vastly successful in achieving this goal.

Enrolled land is assessed according to the income approach to land appraisal – the amount of income the land is capable of producing at its highest and best agricultural use. The trend in recent years has been for the use values to increase. Counties may establish use values that are lower than the department's. The program has widespread participation, with nine million acres enrolled statewide. The average reduction in fair market assessed value for enrollees is nearly 50 percent – providing an incentive to keep the land undeveloped.

The program is voluntary and requires a minimum of 10 acres remaining in one of three designated use categories:

- Agricultural use – land used to produce agricultural commodities commercially;
- Agricultural reserve – noncommercial open space land used for recreation and scenic enjoyment that is open to the public free-of-charge; and
- Forest reserve – 10 acres or more of forested land capable of yielding timber or other wood products.

Land removed from its designated category for a non-permitted use is subject to a roll-back tax imposed for up to seven years, plus six percent interest. Certain land divisions and conveyances are exempt from roll-back penalties if the original use of the land does not change.

County assessment offices administer the program at the county level. The bureau provides for uniform interpretation of the Clean and Green Act among county assessment offices and distributes use values by May 1 of each year. County assessors are required to submit information annually on the extent of Clean and Green Act participation within their counties to the department. To facilitate this process, the department surveys each county on its Clean and Green activity. The findings from this survey are the basis of this report. A copy of the survey form used to gather this information is included in the appendices as Exhibit A.

In early 2015, the bureau conducted a Clean and Green training session for the Indiana County Tax Assessment Office. The county underwent a property reassessment in 2015, and more than 3,100 parcels subsequently enrolled in the program.

In 2015, revisions to the Clean and Green regulations were published to reflect recent changes in the law, including provisions for oil and gas production, commercial wind energy and direct marketing of agricultural products. In addition, the regulation clarifies how farmstead land surrounding a residence and farm buildings must be assessed.

2015 Clean and Green Survey Results

Administration

The 2015 survey forms were distributed to 67 counties and 61 responded to the survey. Fifty-six counties, or 84 percent, participated in the Clean and Green program. Table 8 (appendix) depicts those counties reporting participation in 2015.

Table 9 (appendix) summarizes the statistical data of participation. Counties reported 178,720 parcels enrolled in 2015 covering 9,056,825 acres.

Table 10 (appendix) indicates the acres terminated in each category of eligibility. The most common reasons for termination and removal of enrolled land include a split-off/subdivision between two and 10 acres, a change in use of the enrolled property that is inconsistent with the eligibility requirements, sale of enrolled property for residential development, establishment of a commercial activity not consistent with the allowable rural enterprise, and posting land enrolled in the agriculture reserve category.

Table 11 (appendix) lists the number of applications rejected per county for reasons such as not meeting requirements, too little acreage, late filing, non-conforming use, inability to verify ownership, or failure to show \$2,000 anticipated gross income. It lists the number of violations cited for reasons such as property split-offs, non-conforming subdivisions, change in use,

transfer of land, and voluntary rollbacks. Far more applications are accepted each year than rejected. Violations which result in rollback taxes are often unavoidable.

Table 12 (appendix) lists the Rollback Tax Summary. It details the dollar amount received as rollback taxes and the dollar amount received as interest on the rollback taxes. Act 319 requires that all the interest received on rollback taxes be added to other local money appropriated by an eligible county for the purchase of agricultural conservation easements. If the county does not participate in the easement program, the interest shall be forwarded to the state agricultural conservation easement purchase fund. The interest on rollback taxes is intended to mitigate loss of farmland as it is used to fund easements purchased through the state farmland preservation program. In some cases, it is the sole source of county funds that are certified to the state for match.

Table 13 (appendix) lists the manner in which Act 319 use values were determined by the responding counties. The county has the option of establishing a base year to calculate the preferential assessment, using the annual department-provided county-specific use values, or determining a lower county-specific use value. Many counties favor locking in base-year values rather than updating each year, while others prefer annual updates.

Table 13 also lists how counties assess the forest reserve average values. The department, with assistance from the state Department of Conservation and Natural Resources' Bureau of Forestry, provides values based on the average value of timber in a particular county and the average value of six timber types.

Agricultural Conservation Easement Program

The federal Agricultural Conservation Easement Program (ACEP) works through existing government programs, including the Bureau of Farmland Preservation, to help preserve prime and unique farmland. The program reimburses land owners up to 50 percent of the fair market easement value. This allows counties to preserve additional farms on their waiting lists that may have otherwise not been preserved with state, county and municipality funding alone.

Since 1996, the Agricultural Conservation Easement Program (formerly known as the Farm and Ranchland Protection Program) has provided more than \$33 million in funding to the state easement purchase program in Pennsylvania. This funding preserved more than 40,000 acres throughout the commonwealth. No federal funds were committed in 2015. However, at the time of this printing, the department has submitted a proposal containing seven applications under a new cooperative agreement.

Century and Bicentennial Farm Programs

Pennsylvania's Century and Bicentennial Farm programs demonstrate the importance of agriculture and the state's rural heritage and emphasize the tradition and commitment of Pennsylvania's long-standing farm families.

The Century Farm Program recognizes farms that have been in the same family for 100 years or more. Owners of farms recognized with this designation are presented with a certificate from the Pennsylvania secretary of agriculture. Information supplied by the applicants is filed in the archives of the Pennsylvania Historical and Museum Commission.

The Bicentennial Farm Program was created in 2004 to recognize farms that have been in the same family for 200 years or more. The Bicentennial Farm Program is ruled by similar standards to the Century Farm Program.

In 2015, a total of 31 Century and Bicentennial farms were recognized at a number of different events, including the Pennsylvania Farm Show and Ag Progress Days. To date, the Department of Agriculture has recognized 1,997 Century and 173 Bicentennial farms, representing 2,170 families dedicated to both their heritage and production agriculture.

Grant Programs

Agricultural Land Conservation Assistance Grant Program

Act 99 of 1994 authorized up to \$750,000 in proceeds from the sale of state-owned farmland to establish an Agricultural Land Conservation Assistance Grant Program. The program is designed to assist county farmland preservation programs in developing Geographic Information Systems (GIS), effective agricultural zoning ordinances, and contracting with consultants (i.e. technicians to monitor soil conservation plans or providing financial implication workshops as a service to applicants). All grants must be used to improve the functioning and effectiveness of county programs. To date, nearly all county programs use GIS for ranking and scoring applicants. The grant program furthers county programs by providing technology that more accurately processes applications while saving the counties an undetermined amount of administrative burden.

The grant assistance program provides matching grants of up to \$10,000 to eligible counties. A county is not eligible for more than a cumulative total of \$25,000 in grants under the program.

There is a remaining balance of \$195,704 in the program account, allowing for a future grant round.

Land Trust Reimbursement Grant Program

In addition to the state's Bureau of Farmland Preservation, nonprofit organizations called "land trusts" operate throughout Pennsylvania to ensure land with special natural or public value is not developed. To support this effort and accelerate the state's farmland preservation activity, Act 46 of 2006 established the Land Trust Reimbursement Grant Program.

The grant program authorizes the Pennsylvania Agricultural Land Preservation Board to allocate up to \$200,000 annually from the Agricultural Conservation Easement Purchase Fund for reimbursement of expenses incurred in the acquisition of agricultural conservation easements by land trusts. The grants cover expenses including appraisal, legal services, title searches, document preparation, title insurance, survey and closing fees.

Twenty-three land trusts are registered with the state board. As of December 2015, the board awarded \$1,944,220 to seven trusts for expenses incurred through the preservation of 30,158 acres. The acreage preserved through this program does not count toward the state total of preserved land and farms.

Easement Program Participation

The remainder of this annual report responds directly to the requirements of Section 14.4 (legislative report) of Act 149 of 1988, the Agricultural Area Security Law. Subsection titles are

keyed to the numbered paragraphs of Section 14.4 and contain explanatory text that references tables and graphs included in the appendices.

Agricultural Security Areas

Agricultural Security Areas strengthen and protect quality farmland from the urbanization of rural areas by protecting against local nuisance ordinances related to farming activities and providing oversight in certain cases of eminent domain. Enrollment in an ASA is voluntary, but a prerequisite for applying to the county farmland preservation program.

The Agricultural Area Security Law, as amended April 13, 1992, P.L. 100, No. 23, provides that the Secretary of Agriculture shall be notified by the governing body within 10 days of the recording of an ASA.

Location

A list of all ASAs known to the department is contained in Table 1 (appendix). ASAs are listed alphabetically by county and township.

In 2015, five townships were newly designated as ASAs, bringing the state totals to 996 ASAs in 65 counties in Pennsylvania.

Number of Acres

In 2015, a total of 3,965,626 acres were enrolled in ASAs across Pennsylvania.

Agricultural conservation easements preserved in 2015 are listed in Table 2 (appendix). The first two columns list the landowner's name and the county where the easement is located.

Conservation Easements

Number of Acres

In 2015, 13,751 acres were placed under agricultural conservation easements. A total of 520,619 acres has been placed under agricultural conservation easements in the commonwealth since the program began under the authority of Act 149 of 1988. All the easements have been purchased to protect the land in perpetuity.

Agricultural conservation easements preserved in 2015 are listed in Table 2 (appendix). The second and third columns list the landowner's name and the county where the easement is located.

Number of Easements

To date, 4,951 easements have been purchased in Pennsylvania under the authority of Act 149 of 1988. While other agricultural conservation easements exist in the commonwealth, they have not been purchased under the authority of Act 149 and their existence is not reported to the agriculture department. The reported easements are specifically divided into 1,028 county-owned, 1,609 commonwealth-owned, 2,109 jointly-owned agricultural conservation easements, 96 multi-funded easements and 46 easements funded jointly between a county and non-profit or local municipality.

Number and Acres in Each Conservation Easement

Table 2 (appendix) lists the number of, and acres for, each easement purchased during the reporting period. There were 160 easements totaling 13,751 acres purchased in 2015, shown in

Table 2 (appendix). There were 138 lump-sum payment purchases, accounting for 86 percent of the easements. The majority of easement transactions were bargain sales, meaning easements were purchased at less than 100 percent of the appraised easement value.

There were 22 regular installment sales, roughly 14 percent. The majority of the installments received no interest, while several regular installment sales averaged 1 percent.

Number and Value of Easements Purchased

The purchase price of each easement under the program this reporting period is given under column five of Table 2 (appendix). The next two columns of Table 2 present additional costs in acquiring the easements and the "Total Costs" column represents the sum of the three columns.

1. Commonwealth-Owned Conservation Easements

Fifty-three commonwealth-owned easements were purchased in 2015, covering 5,216 acres with an easement value of \$15,868,289.

2. Joint Commonwealth/County-Owned Conservation Easements

There were 68 state and county jointly-owned easements covering 6,302 acres purchased in 2015. These easements totaled \$17,265,763.

3. Multi-Commonwealth/County/Township-Owned Conservation Easements

In 2015, five multi-owned easements totaling 404 acres and \$1,983,003 were purchased by the commonwealth, counties and townships.

Participating Counties

All 57 counties with appointed boards and active programs were eligible to participate in the 2015 allocation of funds process and are listed in Table 3 (appendix).

County Annual Appropriation

The 2015 appropriations made by counties are listed under the second column of Table 3 (appendix), totaling \$14,703,423. Figure 1 (appendix) shows total county appropriation amounts from 1989-2016.

Characteristics of 2015 Preserved Farmland

Quality of Farmlands Subject to Easement

Data was collected on the soil classification, crop types, acreages and yields, livestock types and numbers for each farm on which an easement was purchased from January 1 – December 31, 2015.

In summary, 13,751 acres of land were placed under easement during this reporting period on 160 farms.

Natural Resources Conservation Service (NRCS) soil classifications of this land are:

- Class I – 624 acres
- Class II – 5,747 acres
- Class III – 4,535 acres
- Class IV – 1,726 acres
- Other Classes (V-VIII; ponds, wetlands or other lands not broken down by county) – 1,119 acres

Soil classes I-IV are well-suited for agricultural production.

A breakdown of the major crops grown on the farms:

- Row Crops – 6,738 acres
- Hayland – 3,988 acres
- Small Grain – 1,375 acres
- Pasture – 1,650 acres

Farms preserved supporting primary livestock operations:

- Dairy – 33 farms
- Beef – 20 farms
- Horses – 3 farms
- Sheep – 2 farms
- Swine – 2 farms

Nature and Scope of Development Activity

The likelihood of development was generally moderate to high in areas where agricultural conservation easements were purchased. These areas were primarily zoned rural residential, agricultural or conservation district. Agricultural zoning occurred in approximately 50 percent of the areas under easement purchase. Public sewer and water is available or is planned in approximately 25 percent of the preserved area.

Conservation Practices on Farms Subject to Easement

The following summary presents the frequency of use of conservation practices and best management practices on farms where conservation easements were purchased in 2015. All the farmers have developed conservation plans for their farms and are in various stages of implementation. Annual inspections conducted by the counties will report on the progress being made by farmers toward implementing their conservation plans.

SUMMARY OF CONSERVATION PRACTICES ON FARMS WITH CONSERVATION EASEMENTS		
<u>CONSERVATION PRACTICES</u>	<u>NUMBER OF FARMS</u>	<u>PERCENT OF TOTAL FARMS w/EASEMENTS</u>
Conservation tillage	104	65
Contour farming	112	70
Crop rotations	96	60
Crop residue use	43	27
Cover crops	80	50
Diversions	22	14
Streambank protection	14	9
Stripcropping	120	75
Subsurface drainage	6	4
Terraces	14	9
Water control structures	8	5
Waterways	64	40
Animal waste storage	80	50
Nutrient management system	80	50
Pasture and hayland management	104	65

Recommendations for the Purchase of Agricultural Conservation Easements

The total number of recommendations filed this reporting period by counties is the same as the number approved by the state board (160). None were disapproved.

Conclusion

Over the past year, the Farmland Preservation Program has permanently preserved 13,751 acres of agricultural land on 160 farms. The total cost of this protection in state and county funds was \$53,147,665. The average price per acre was \$2,600. Farmers have requested and gained municipal government approval of agricultural security areas protecting farming on more than 3.9 million acres of land. Of the 57 participating counties, 55, or 96 percent, appropriated local money for farmland preservation during the 2014 calendar year, amounting to more than \$16.6 million.

Pennsylvania's farmland preservation program remains a successful partnership between all levels of government and non-profit entities and is a national model for success in safeguarding prime farmland. An estimated 1,500 eligible farms remain on county backlog lists for 2015.

The challenge of securing Pennsylvania agriculture in perpetuity requires that eased farms are transitioned to a new generation of agriculturalists. The Preserved Farms Resource Center will address these challenges.

County Milestones

Two counties reached important preservation milestones during 2014:

- York County – 40,000 acres
- Schuylkill County – 10,000 acres

State Agricultural Land Preservation Board

PENNSYLVANIA DEPARTMENT OF AGRICULTURE
Form AA0-91, Rev. December 2015

County _____
Year 2015

FARMLAND AND FORESTLAND TAX ASSESSMENT COUNTY SURVEY

The Pennsylvania Farmland and Forestland Assessment Act of 1972 as amended requires the Pennsylvania Department of Agriculture to promulgate statewide uniform rules and regulations for implementing the act. In order to insure that the rules and regulations are fair and consistent with the intent of the act, each County Assessor will provide the Pennsylvania Department of Agriculture with the following information.

Form AAO-91 is to be completed by the county assessor or the authorized representative for the calendar year specified above by January 31, 2016. Please provide as much information as possible. Use additional sheets if necessary.

- 1.) Is the act being used in your county? _____
- 2.) Total number of landowners participating as of the end of 2015 (cumulative)? _____
- 3.) Total number of parcels enrolled as of the end of 2015 (cumulative)? _____
Number of applications rejected during 2015? _____
- 4.) Number of acres terminated in each category (i.e. Ag Use, Ag Reserve, or Forest Reserve) during 2015:
 - a. Ag Use _____
 - b. Ag Reserve_____
 - c. Forest Reserve_____
- 5.) What were the most common reasons? _____
- 6.) Total dollar amount received in rollback in 2015? _____
- 7.) Total dollar amount received as interest on rollback in 2015?
 - a. Are you an eligible county under the Agricultural Area Security Law? _____
 - b. If yes, has ALL rollback interest been appropriated for the purchase of agricultural conservation easements under Section 14.1(h) of Act 43, Agricultural Area Security Law (county participates in Farmland Preservation Program)? _____
 - c. If no, has ALL the rollback interest been forwarded to the State Agricultural Conservation Easement Purchase Fund? _____
- 8.) Total acres enrolled in each land use category (cumulative):
Agricultural Use _____ Agricultural Reserve _____
Forest Reserve _____ Total _____
- 9.) What category best describes the Ag Use and Ag Reserve Use Values in your county?
 - a. 2015 use values provided by the Commonwealth
 - b. Base-year use values, provided by the Commonwealth, in a previous year
What year? _____
 - c. Use values derived by the county, a consultant, or other means (please explain)

- 10.) What category best describes the Forest Reserve Use Values in your county?
- 2015 use values provided by the Commonwealth (county average value used)
 - 2015 use values provided by the Commonwealth (6 timber-type values used)
 - Base year use values, provided by the Commonwealth, in a previous year (county average value used) What year? _____
 - Base year use values provided by the Commonwealth, in a previous year (6 timber-type values used) What year? _____
 - Use values derived by the county, a consultant, or other means (please explain)
- 11.) In what year was your county last reassessed? _____
- 12.) How many appeals involving Clean and Green applications or assessments were made to either the Board of Assessment Appeals or to the Court of Common Pleas during 2015?
Board of Assessment Appeals_____ Court of Common Pleas_____
- 13.) Do you know the difference in the county's assessed value and the value of preferential assessments in 2015? If so, please provide that information.
- County Assessed Value _____
 - Value of Preferential Assessments _____
- 14.) Please provide the name, address, and phone number of the current county assessor.

(printed name)	(address)
(signature)	(city, state, and zip code)
(telephone)	(email)

- 15.) Please name the person other than the county assessor completing this form, if applicable.

(printed name)	(signature)
----------------	-------------

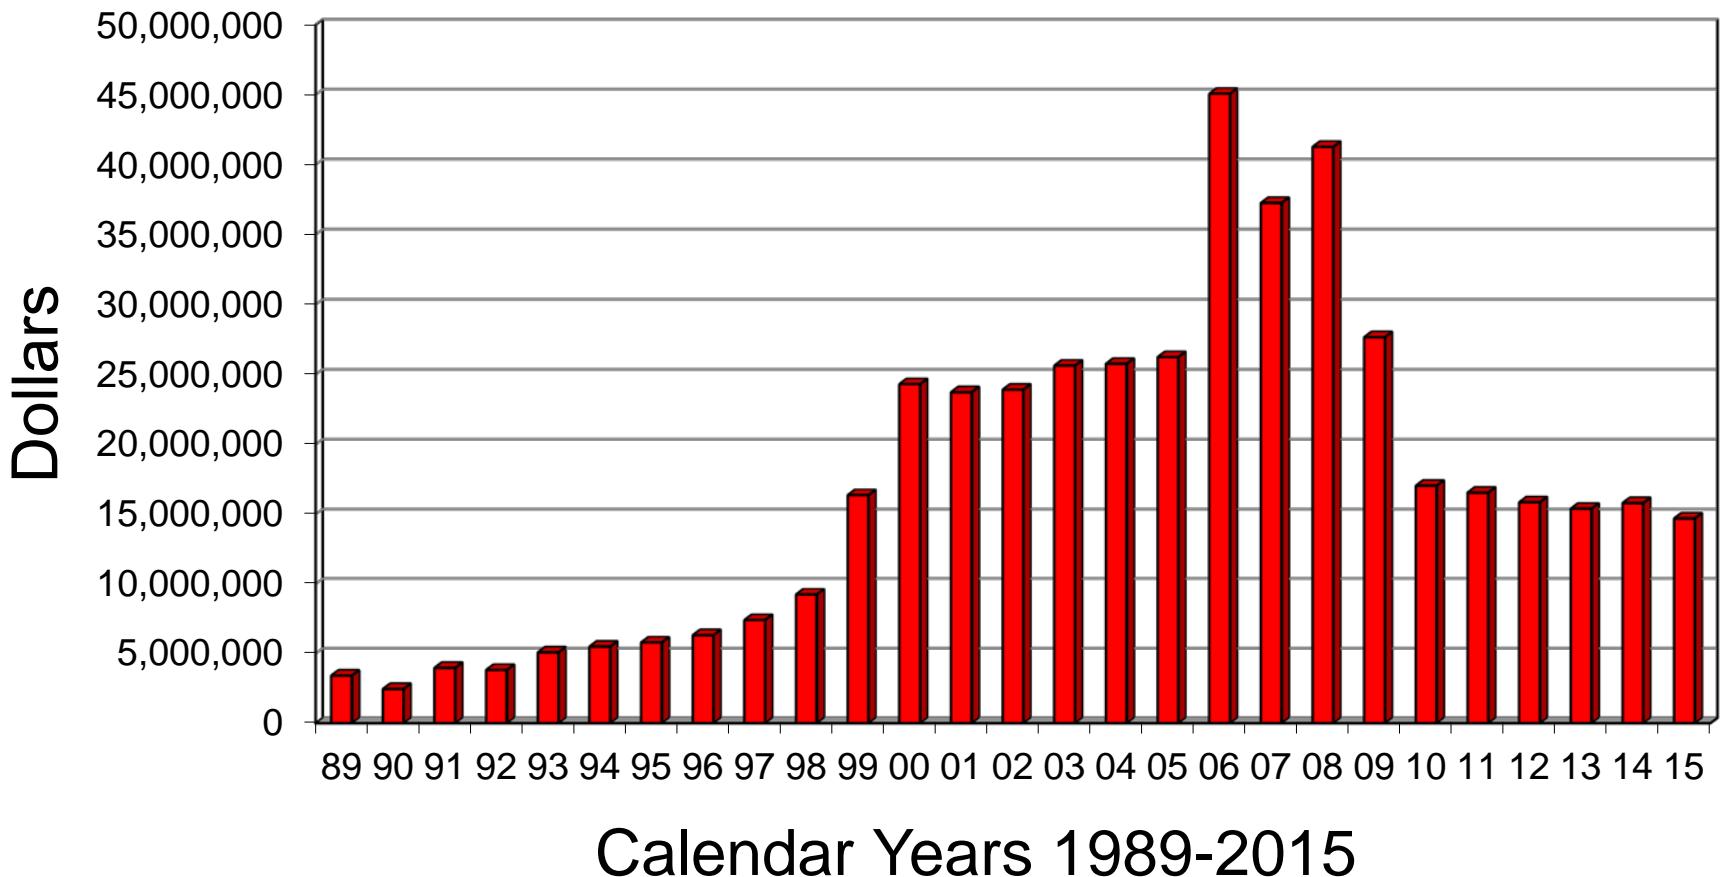

- 16.) Please provide the main contact person handling Clean & Green questions.

(printed name)	(email and telephone)
----------------	-----------------------

PLEASE RETURN BY JANUARY 31, 2016 TO:

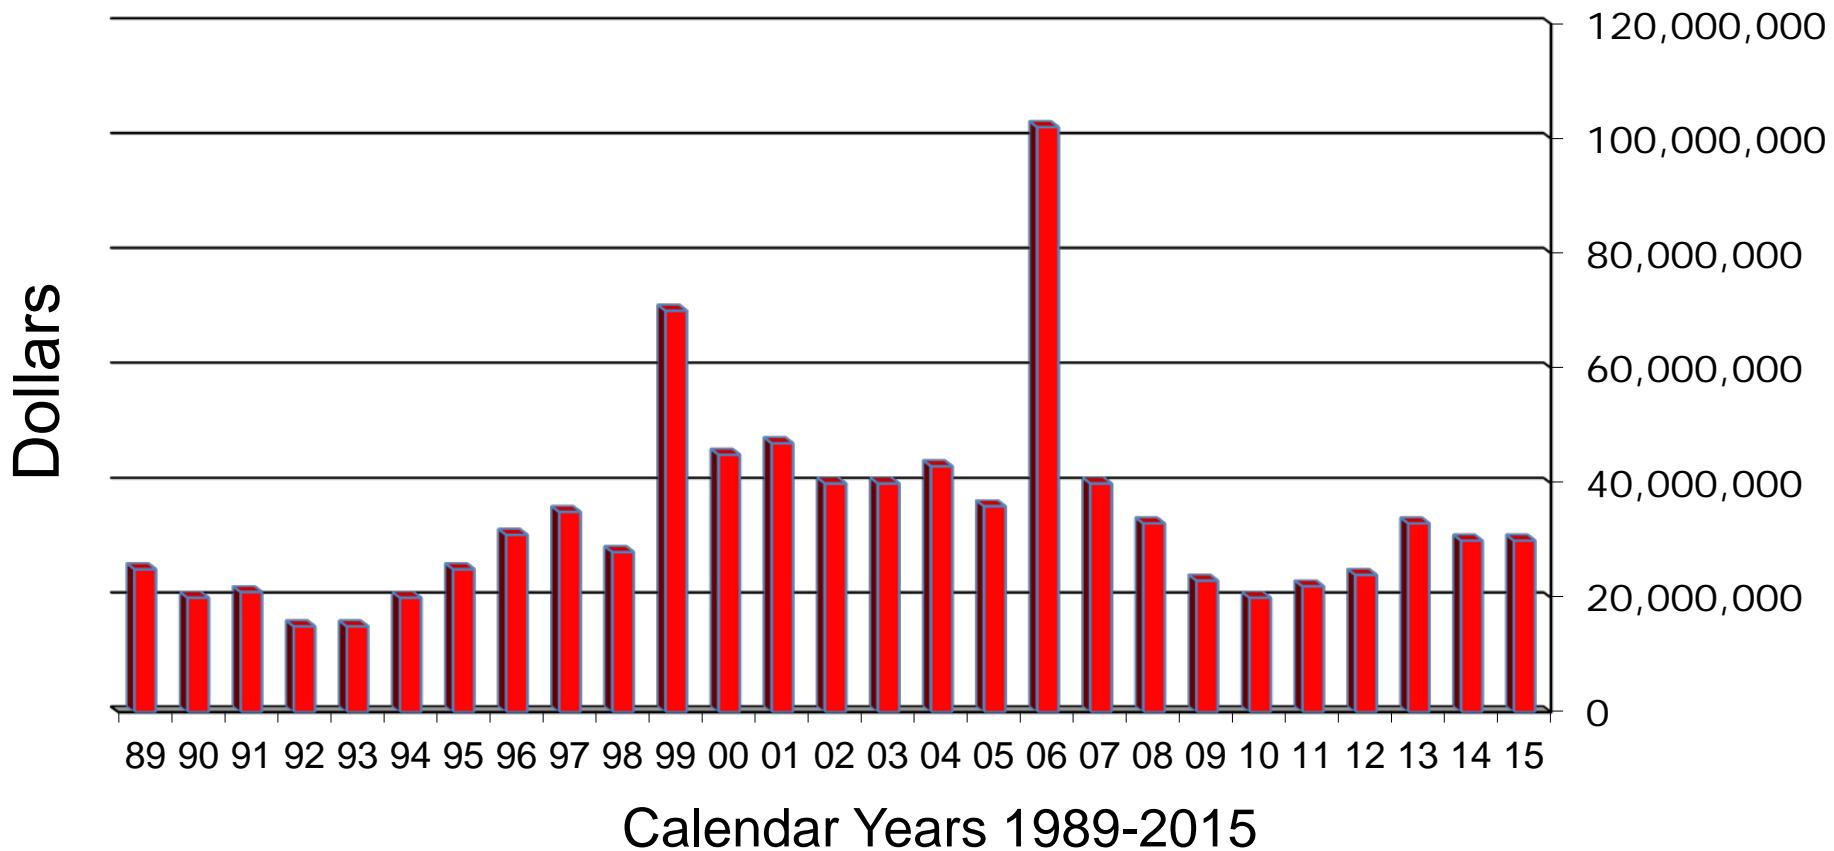

**PA DEPARTMENT OF AGRICULTURE
BUREAU OF FARMLAND PRESERVATION
2301 NORTH CAMERON STREET, ROOM 402
HARRISBURG, PA 17110-9408
FAX 717-772-8798 stzimmerma@pa.gov**

Figure 1 – County Appropriations

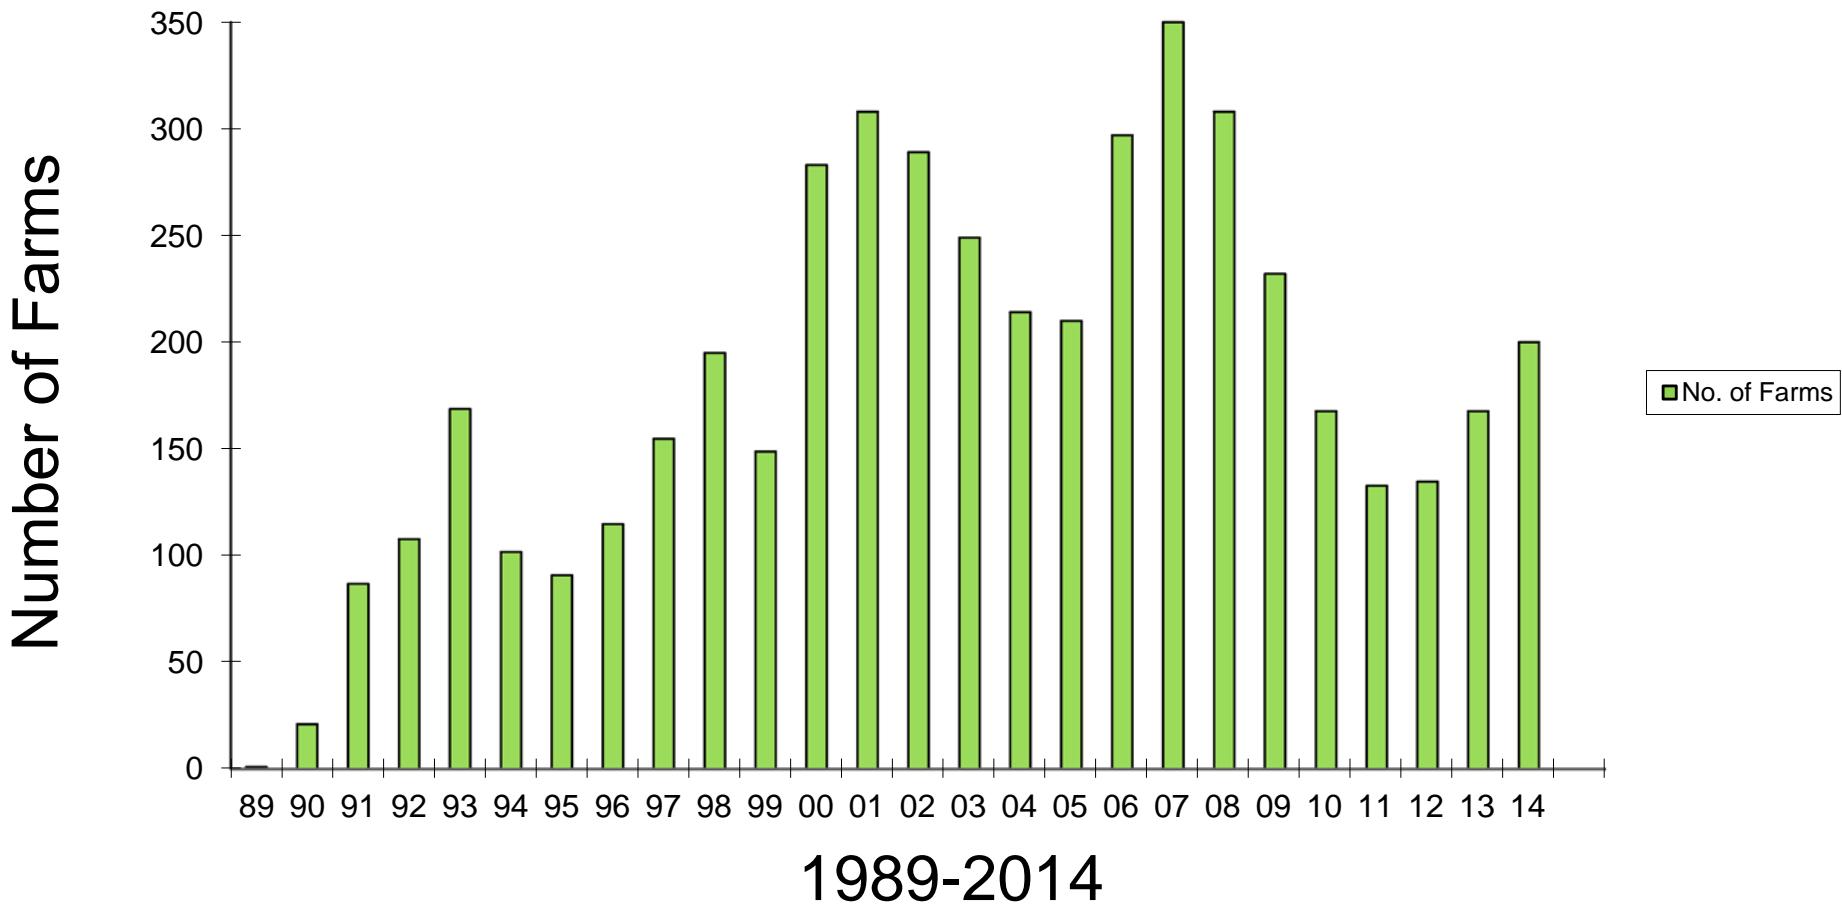

County appropriations hit an all-time high in 2006 through 2008 when the Growing Greener II bond initiative provided higher state matching funding.

Figure 2 – State appropriations

Growing Greener I in 1999 and Growing Greener II in 2005 both provided significant funding for farmland preservation and greatly accelerated the rate of preservation in the years that followed.

Figure 3 – Farms Preserved By Year

Growing Greener I in 1999 and Growing Greener II in 2005 both provided significant funding for farmland preservation. Those spikes in preservation are shown in 2000-02 and 2006-08.

TABLE 1: Agricultural Security Areas, Sorted by County

Table 7: Land Trust Reimbursement Grant Program

Background: Act 15 of 1999 authorized the State Board to allocate up to \$500,000.00 from the Supplemental Agricultural Conservation Easement Purchase Account for reimbursement grants to be awarded among qualified land trusts. Act 46 of 2006 amended the Agricultural Area Security Law (P.L. 128, No. 43), re-establishing the Land Trust Reimbursement Program by authorizing the State Agricultural Land Preservation Board to allocate \$200,000 per year to the Grant Program. The program will reimburse qualified land trusts up to \$5,000 for expenses incurred in the acquisition of agricultural conservation easements. These expenses include appraisal costs, legal services, title searches, document preparation, title insurance, closing costs, and survey costs.

Objective: To accelerate farmland preservation activity by developing partnerships with land trusts.

Status: 12/10/2015 State Board Meeting

Land Trusts registered with the State Board (23):

Adopt An Acre, Inc.
 Allegheny Land Trust
 Berks County Conservancy
 Brandywine Conservancy
 Central Pennsylvania Conservancy
 Centre County Farmland Trust
 Countryside Conservancy
 Delaware Highlands Conservancy
 Farm and Natural Lands Trust of York County
 French and Pickering Creeks Conservation Trust, Inc.
 Heritage Conservancy
 Lancaster Farmland Trust
 Land Conservancy of Adams County
 Lebanon Valley Conservancy, Inc.
 Manada Conservancy
 Merrill W. Linn Conservancy
 Montgomery County Lands Trust
 Natural Lands Trust, Inc.
 North Branch Land Trust
 Pennsbury Land Trusts, Inc.
 Pittsburgh History & Landmarks Foundation
 Western Pennsylvania Conservancy
 Wildlands Conservancy

Application Reimbursements (3):

Adopt An Acre, Inc.	31 acres	\$5,500.00
Berks County Conservancy	168 acres	\$9,945.30
